

# Fungal Taxonomic Composition by Site

## Class

- |                         |                        |
|-------------------------|------------------------|
| Agaricomycetes          | Mortierellomycetes     |
| Agaricostilbomycetes    | Mucoromycetes          |
| Archaeorhizomycetes     | Neocallimastigomycetes |
| Arthoniomycetes         | Olpidiomycetes         |
| Basidiobolomycetes      | Orbiliomycetes         |
| Blastocladiomycetes     | Paraglomeromycetes     |
| Calcarisporiellomycetes | Pezizomycetes          |
| Cystobasidiomycetes     | Pneumocystidomycetes   |
| Dacrymycetes            | Pucciniomycetes        |
| Dothideomycetes         | Rhizophlyctidomycetes  |
| Entomophthoromycetes    | Saccharomycetes        |
| Eurotiomycetes          | Schizosaccharomycetes  |
| Geminibasidiomycetes    | Sordariomycetes        |
| Geoglossomycetes        | Spizellomycetes        |
| Glomeromycetes          | Taphrinomycetes        |
| Lecanoromycetes         | Trebouxiophyceae       |
| Leotiomycetes           | Tremellomycetes        |
| Lobulomycetes           | Wallemiomycetes        |
| Malasseziomycetes       | Zoopagomycetes         |
| Microbotryomycetes      | NA                     |
